

Core Learning

We place a strong emphasis on our children becoming fluent readers and at least meeting national expectations in:

- Speaking & Listening
- Reading
- Writing
- Maths
- Science

Effective learning skills

We develop the behaviours the children need to succeed in the world such as concentration, self-improvement, resilience, co-operation, the enjoyment of learning and curiosity; supporting children to develop a growth mindset.

Personal development

We ensure that our children develop character and a moral compass, celebrate difference, know how to keep themselves safe and healthy and become responsible members of the community.

Foundation Learning

We aim for all children to reach their potential and for most to at least meet national expectations in the Creative Arts, Humanities, Technology & Computing and RE.

Wider curriculum

We take into account their previous experiences and providing a 'bucket list' of experiences to inspire awe, wonder and a thirst for learning in our children.
